6th Grade CCSS Math Vocabulary Quiz 18

1. **A**   A line that divides a figure into two congruent halves that are mirror images of each other.
   A.line of symmetry   B.like denominators   C.liter   D.inch

2. **A**   A metric unit of mass equal to 1000 grams.
   A.kilogram   B.liter   C.line of symmetry   D.like denominators

3. **B**   A part of a line with two endpoints.
   A.line of symmetry   B.line segment   C.hour   D.length

4. **B**   How long something is. The distance from one point to another. Measured in units such as inches, feet, centimeters, etc.
   A.less than   B.length   C.line segment   D.inverse operations

5. **A**   A term for a fraction whose numerator is greater than or equal to its denominator.
   A.improper fraction   B.inverse operations   C.length   D.like denominators

6. **D**   A metric unit of length equal to 1000 meters
   A.intersecting lines   B.mass   C.liter   D.kilometer

7. **C**   A diagram showing frequency of data on a number line
   A.line segment   B.kilometer   C.line plot   D.hour

8. **B**   Operations that undo each other.
   A.line plot   B.inverse operations   C.length   D.hour

9. **D**   A set of connected points continuing without end in both directions
   A.line segment   B.hour   C.kilometer   D.line

10. **A**   The amount of matter in an object.
    A.mass   B.hundredth   C.lowest terms   D.inch

11. **C**   Lines that cross at a point.
    A.line of symmetry   B.line   C.intersecting lines   D.lowest terms

12. **C**   A customary unit of length. There of 12 of these in 1 foot.
    A.line plot   B.liter   C.inch   D.kilometer

13. **A**   A comparison made when the first number is smaller than the second number.
    A.less than   B.inverse operations   C.line segment   D.like denominators

14. **D**   The basic unit of capacity in the metric system.
    A.line of symmetry   B.inverse operations   C.lowest terms   D.liter

15. **B**   A unit of time that equals 60 minutes.
    A.line segment   B.hour   C.lowest terms   D.length

16. **A**   Denominators in two or more fractions that are the same.
    A.like denominators   B.improper fraction   C.intersecting lines   D.mass

17. **A**   A fraction expressed in simplest form. The numerator and denominator have no factor in common except 1.
    A.lowest terms   B.line plot   C.line   D.like denominators

18. **C**   One of the equal parts when a whole is divided into 100 equal parts.
    A.line plot   B.intersecting lines   C.hundredth   D.line
