

6th Grade CCSS Math Vocabulary Quiz 32

1. ___ The basic unit of capacity in the metric system.
A.less than B.like denominators C.liter D.intersecting lines
2. ___ Operations that undo each other.
A.inverse operations B.hundredth C.intersecting lines D.less than
3. ___ A unit of time that equals 60 minutes.
A.intersecting lines B.like denominators C.hour D.improper fraction
4. ___ A fraction expressed in simplest form. The numerator and denominator have no factor in common except
A.kilometer B.hour C.lowest terms D.hundredth
5. ___ A customary unit of length. There of 12 of these in 1 foot.
A.kilogram B.length C.inch D.line
6. ___ A comparison made when the first number is smaller than the second number.
A.liter B.less than C.line segment D.line
7. ___ A metric unit of mass equal to 1000 grams.
A.line segment B.lowest terms C.kilogram D.line of symmetry
8. ___ A line that divides a figure into two congruent halves that are mirror images of each other.
A.lowest terms B.line of symmetry C.kilogram D.inch
9. ___ Denominators in two or more fractions that are the same.
A.liter B.length C.like denominators D.intersecting lines
10. ___ How long something is. The distance from one point to another. Measured in units such as inches, feet, centimeters, etc.
A.liter B.kilometer C.length D.improper fraction
11. ___ A term for a fraction whose numerator is greater than or equal to its denominator.
A.line B.kilometer C.inverse operations D.improper fraction
12. ___ A diagram showing frequency of data on a number line
A.line plot B.hundredth C.improper fraction D.line segment
13. ___ A part of a line with two endpoints.
A.line segment B.mass C.hundredth D.improper fraction
14. ___ A set of connected points continuing without end in both directions
A.inverse operations B.line plot C.line D.lowest terms
15. ___ A metric unit of length equal to 1000 meters
A.mass B.lowest terms C.improper fraction D.kilometer
16. ___ Lines that cross at a point.
A.line of symmetry B.intersecting lines C.length D.kilogram
17. ___ One of the equal parts when a whole is divided into 100 equal parts.
A.length B.lowest terms C.hundredth D.hour
18. ___ The amount of matter in an object.
A.line plot B.inverse operations C.hundredth D.mass
