7th Grade CCSS Math Vocabulary Quiz 15

1. ___ Equation that states that two ratios are equal.
   A.probability   B.range   C.pi   D.proportion

2. ___ Decimal in which a digit or a group of digits repeats without end.
   A.range   B.proportion   C.sample   D.repeating decimal

3. ___ Measure of the likelihood that an event will occur.
   A.probability   B.percent decrease   C.parameter   D.principal

4. ___ Ratio of the circumference of a circle to its diameter.
   A.right angle   B.pi   C.range   D.parameter

5. ___ Entire set of items from which data can be selected.
   A.population   B.rate   C.repeating decimal   D.radius

6. ___ Comparison of two quantities that uses division.
   A.ratio   B.percent increase   C.random sample   D.radius

7. ___ In statistics it is a characteristic used to describe a population.
   A.parameter   B.sample   C.percent decrease   D.percent increase

8. ___ Distance from the center of a circle to a point on the circle.
   A.population   B.pyramid   C.radius   D.principal

9. ___ List of all possible outcomes of an experiment.
   A.principal   B.parameter   C.percent increase   D.sample space

10. ___ A sample that is selected from the population in such a way that every member of the population has the same chance of being selected.
    A.random sample   B.principal   C.probability   D.pyramid

11. ___ Original amount of money invested.
    A.random sample   B.principal   C.proportion   D.repeating decimal

12. ___ New amount is less than the original amount. It is a ratio of the amount of decrease to the original amount.
    A.ratio   B.sample   C.radius   D.percent decrease

13. ___ Ratio that compares two quantities that are measured in different units.
    A.rate   B.ratio   C.principal   D.percent increase

14. ___ Angle whose measure is equal to 90º.
    A.proportion   B.principal   C.percent decrease   D.right angle

15. ___ Data from part of a population.
    A.radius   B.percent decrease   C.sample   D.population

16. ___ Maximum minus minimum.
    A.range   B.percent decrease   C.percent increase   D.ratio

17. ___ New amount is greater than the original amount. It is a ratio of the amount of increase to the original amount.
    A.population   B.repeating decimal   C.percent increase   D.random sample

18. ___ Polyhedron formed by connecting one polygonal face to several triangular faces; they are classified by their bases.
    A.random sample   B.principal   C.sample space   D.pyramid
