

## 7th Grade CCSS Math Vocabulary Quiz 5

1.   B   Sum of their angle measures is equal to  $90^\circ$ .  
A.adjacent angles B.complementary angles C.combine like terms D.bar notation
2.   D   Amount of money a salesperson earns after selling a product.  
A.corresponding angles B.coefficient C.bar notation D.commission
3.   D   Used for repeating decimals. A bar is drawn of digits that repeat.  
A.commission B.congruent angles C.constant of proportionality D.bar notation
4.   D   Angles that have the same relative position in geometric figures.  
A.acute angle B.combine like terms C.convert D.corresponding angles
5.   B   Simplify expressions by adding or subtracting like terms.  
A.common factor B.combine like terms C.base of pyramid D.algebraic expressions
6.   D   Change it to an equivalent measurement in different units.  
A.algebraic expressions B.congruent angles C.census D.convert
7.   B   Two angles that share a common vertex and a common side.  
A.census B.adjacent angles C.algebraic expressions D.congruent angles
8.   B   Formed by the intersection of a plane and a solid when a plane passes through the solid.  
A.commission B.cross section C.convert D.congruent angles
9.   D   Two or more angles that have equal measures.  
A.circle B.convert C.constant of proportionality D.congruent angles
10.   C   Number that is multiplied by a variable in an algebraic equation.  
A.combine like terms B.convert C.coefficient D.circle
11.   A   Collection of points on the same plane equidistant from the same point.  
A.circle B.circumference of circle C.base of pyramid D.corresponding angles
12.   C   Refers to the outside of a circle.  
A.convert B.acute angle C.circumference of circle D.commission
13.   A   Single polygon face.  
A.base of pyramid B.convert C.algebraic expressions D.coefficient
14.   A   Collection of data from every member of a population.  
A.census B.coefficient C.circle D.cross section
15.   A   Mathematical phrase involving at least one variable and sometimes numbers and operation symbols.  
A.algebraic expressions B.constant of proportionality C.commission D.complementary angles
16.   B   An angle whose measure is greater than  $0^\circ$  but less than  $90^\circ$ .  
A.circle B.acute angle C.census D.circumference of circle
17.   A   Ratio between two values is always the same or constant.  
A.constant of proportionality B.complementary angles C.base of pyramid D.cross section
18.   B   A number or an algebraic expression that is a factor of two or more numbers or algebraic expressions.  
A.circle B.common factor C.corresponding angles D.commission
