7th Grade CCSS Math Vocabulary Quiz 6

1. B Two numbers that when multiplied together equal 1.
   A.inverse operations   B.multiplicative inverse   C.exterior angle theorem   D.non-terminating decimal

2. D Measure of the exterior angle of a triangle is equal to the sum of the measures of the two remote interior angles of the triangle.
   A.diameter   B.mean   C.linear pair   D.exterior angle theorem

3. B Mathematical sentence that is created by placing an equal sign between two expressions.
   A.mean absolute deviation   B.equation   C.non-terminating decimal   D.inscribed circle

4. A When values vary so that one increases or decreases a specific amount, the other value increases or decreases by a constant.
   A.direct variation   B.equation   C.obtuse angle   D.median

5. C Two adjacent angles that have noncommon sides that form a line.
   A.diameter   B.median   C.linear pair   D.non-repeating decimals

6. C Angle whose measure is greater than 90º but less than 180º.
   A.non-repeating decimals   B.inverse operations   C.obtuse angle   D.exterior angles

7. B Largest factor that two or more numbers or terms have in common.
   A.inverse operations   B.greatest common factor   C.non-terminating decimal   D.linear pair

8. D Decimal that continues without end.
   A.equation   B.linear pair   C.exterior angles   D.non-terminating decimal

9. D Decimal neither terminates nor repeats.
   A.inscribed circle   B.outcome   C.greatest common factor   D.non-repeating decimals

10. B Equal to twice the radius of the circle.
    A.non-repeating decimals   B.diameter   C.exterior angles   D.greatest common factor

11. A Result of a single trial of an experiment.
    A.outcome   B.mean   C.linear pair   D.exterior angles

12. A Average of data set.
    A.mean   B.obtuse angle   C.inscribed circle   D.linear pair

13. D Average of the absolute values of the deviations of each data value from the mean.
    A.mode   B.greatest common factor   C.equation   D.mean absolute deviation

14. C Order numbers least to greatest then find the middle value or find average of two middle values.
    A.non-terminating decimal   B.inscribed circle   C.median   D.outcome

15. B Operations that undo each other.
    A.equation   B.inverse operations   C.median   D.exterior angles

16. C Angles on the outside of a triangle.
    A.equation   B.inverse operations   C.exterior angles   D.mean absolute deviation

17. D In a data set, this is the value(s) that occurs most often.
    A.mean   B.equation   C.multiplicative inverse   D.mode

18. B Circle that fits exactly within the boundaries of another shape.
    A.multiplicative inverse   B.inscribed circle   C.diameter   D.greatest common factor
