

7th Grade CCSS Math Vocabulary Quiz 7

1. ___ New amount is greater than the original amount. It is a ratio of the amount of increase to the original amount.
A.right angle B.percent increase C.parameter D.random sample
2. ___ Ratio of the circumference of a circle to its diameter.
A.right angle B.percent decrease C.pi D.parameter
3. ___ Equation that states that two ratios are equal.
A.proportion B.repeating decimal C.parameter D.rate
4. ___ Measure of the likelihood that an event will occur.
A.ratio B.repeating decimal C.radius D.probability
5. ___ In statistics it is a characteristic used to describe a population.
A.pyramid B.parameter C.right angle D.repeating decimal
6. ___ Angle whose measure is equal to 90° .
A.range B.right angle C.sample D.principal
7. ___ Comparison of two quantities that uses division.
A.probability B.ratio C.pi D.radius
8. ___ A sample that is selected from the population in such a way that every member of the population has the same chance of being selected.
A.parameter B.random sample C.rate D.ratio
9. ___ Ratio that compares two quantities that are measured in different units.
A.rate B.pyramid C.probability D.random sample
10. ___ New amount is less than the original amount. It is a ratio of the amount of decrease to the original amount.
A.ratio B.probability C.range D.percent decrease
11. ___ Maximum minus minimum.
A.right angle B.principal C.range D.radius
12. ___ Distance from the center of a circle to a point on the circle.
A.radius B.principal C.pyramid D.range
13. ___ Original amount of money invested.
A.rate B.principal C.random sample D.proportion
14. ___ Decimal in which a digit or a group of digits repeats without end.
A.random sample B.sample space C.sample D.repeating decimal
15. ___ List of all possible outcomes of an experiment.
A.repeating decimal B.sample space C.ratio D.population
16. ___ Data from part of a population.
A.sample B.parameter C.pi D.probability
17. ___ Entire set of items from which data can be selected.
A.population B.radius C.right angle D.proportion
18. ___ Polyhedron formed by connecting one polygonal face to several triangular faces; they are classified by their bases.
A.pyramid B.radius C.parameter D.percent increase
