5th Grade CCSS Math Vocabluary Quiz 1

1. __ To find the value of a numerical or algebraic expression.
A.evaluate B.pair C.point D.forms

2. __ A set of two things used together or regarded as a unit.
A.order of operations B.square root C.pair D.inverse operations

3. __ A mathematical notation indicating the number of times a quantity is multiplied by itself.
A.factorization B.relationship C.forms D.exponent

4. __ A number that when multiplied by itself equals a given number.
A.square root B.exponent C.forms D.relationship

5. __ A mathematical phrase that contains operations, numbers, and/or variables, but doesn't have an equal sign.
A.forms B.expression C.factorization D.coefficient

6. __ An exact location in space represented by a dot.
A.point B.solution C.forms D.expression

7. __ A number written as a product of its factors.
A.factorization B.expression C.point D.evaluate

8. __ Operations that undo each other.
A.inverse operations B.inequality C.evaluate D.operation

9. __ A mathematical process applied to solve a problem.
A.order of operations B.operation C.braces D.exponent

10. __ The explanation or answer for a problem.
A.square root B.braces C.factorization D.solution

11. __ The ways that two things are similar, different, or otherwise connected. An association between two or more variables.
A.relationship B.inverse operations C.coefficient D.operation

12. __ A number in front of a variable.
A.point B.coefficient C.factorization D.exponent

13. __ PEMDAS (Parentheses, Exponents, Multiplication/Division left to right, Addition/Subtraction left to right).
A.evaluate B.order of operations C.braces D.square root

14. __ A mathematical expression which shows that two quantities are not equal.
A.evaluate B.inequality C.order of operations D.point

15. __ Three-dimensional objects that have height, length, and width such as spheres, cylinders, cones, cubes, rectangular prisms, and pyramids. Shapes, appearances, or arrangements.
A.solution B.braces C.forms D.point

16. __ A pair of symbols used to enclose sections of an expression. { }
A.braces B.inequality C.inverse operations D.evaluate
