

5th Grade CCSS Math Vocabulary Quiz 16

1. ___ A mathematical expression which shows that two quantities are not equal.
A.pair B.inequality C.square root D.coefficient
2. ___ A number written as a product of its factors.
A.order of operations B.braces C.inequality D.factorization
3. ___ The ways that two things are similar, different, or otherwise connected. An association between two or more variables.
A.coefficient B.order of operations C.exponent D.relationship
4. ___ A mathematical notation indicating the number of times a quantity is multiplied by itself.
A.exponent B.inverse operations C.inequality D.square root
5. ___ A number in front of a variable.
A.operation B.exponent C.inverse operations D.coefficient
6. ___ A number that when multiplied by itself equals a given number.
A.square root B.forms C.inequality D.pair
7. ___ A mathematical process applied to solve a problem.
A.forms B.operation C.square root D.point
8. ___ An exact location in space represented by a dot.
A.point B.coefficient C.square root D.inverse operations
9. ___ Operations that undo each other.
A.expression B.inverse operations C.exponent D.inequality
10. ___ Three-dimensional objects that have height, length, and width such as spheres, cylinders, cones, cubes, rectangular prisms, and pyramids. Shapes, appearances, or arrangements.
A.braces B.forms C.relationship D.exponent
11. ___ A pair of symbols used to enclose sections of an expression. { }
A.braces B.order of operations C.coefficient D.evaluate
12. ___ PEMDAS (Parentheses, Exponents, Multiplication/Division left to right, Addition/Subtraction left to right).
A.point B.operation C.order of operations D.pair
13. ___ To find the value of a numerical or algebraic expression.
A.exponent B.pair C.evaluate D.order of operations
14. ___ The explanation or answer for a problem.
A.square root B.exponent C.expression D.solution
15. ___ A mathematical phrase that contains operations, numbers, and/or variables, but doesn't have an equal sign.
A.square root B.pair C.expression D.exponent
16. ___ A set of two things used together or regarded as a unit.
A.inequality B.pair C.exponent D.square root
