

5th Grade CCSS Math Vocabulary Quiz 20

1. C Changing the order of the factors does not change the product.
A.divisible B.symbol C.commutative property of multiplication D.prime number
2. D The point where two rays of an angle, two sides of a polygon, or 3 or more edges of a solid figure meet.
A.prime number B.least common multiple C.prime factorization D.vertex
3. A The order in which things happen. The following of one thing after another. The orderly series or succession.
A.sequence B.vertex C.zero property of multiplication D.symbol
4. D A whole number that can divide evenly into another number without a remainder.
A.variable B.commutative property of multiplication C.least common multiple D.divisible
5. D The smallest number that is a common multiple of a given set of numbers.
A.prime number B.sequence C.squared D.least common multiple
6. C When one of the factors of a product is a sum, multiplying each addend before adding does not change the product.
A.zero property of multiplication B.associative property of multiplication C.distributive property D.variable
7. B A letter or symbol used to represent a number.
A.commutative property of multiplication B.variable C.least common multiple D.sequence
8. D A whole number that has exactly two factors, 1 and itself.
A.variable B.whole C.sequence D.prime number
9. D Changing the grouping of three or more factors does not change the product.
A.commutative property of multiplication B.prime number C.volume D.associative property of multiplication
10. C When the exponent is 2.
A.prime factorization B.symbol C.squared D.whole
11. A All of the parts of something.
A.whole B.distributive property C.vertex D.prime number
12. C A table that lists pairs of numbers that follow a rule.
A.distributive property B.symbol C.function table D.prime number
13. D Breaking down a composite number until all of the factors are prime.
A.commutative property of multiplication B.zero property of multiplication C.whole D.prime factorization
14. B Anything that stands for or represents something else.
A.associative property of multiplication B.symbol C.vertex D.commutative property of multiplication
15. D The product of any number and zero is zero.
A.variable B.sequence C.vertex D.zero property of multiplication

-
16. D The amount of space that something occupies or the amount of space that something contains.
A.zero property of multiplication B.least common multiple C.associative property of multiplication D.volume
