## 5th Grade CCSS Math Vocabluary Quiz 20

1. _ Changing the order of the factors does not change the product.
A.divisible B.symbol C.commutative property of multiplication D.prime number
2. _ The point where two rays of an angle, two sides of a polygon, or 3 or more edges of a solid figure meet.
A.prime number B.least common multiple C.prime factorization D.vertex
3. _ The order in which things happen. The following of one thing after another. The orderly series or succession.
A.sequence B.vertex C.zero property of multiplication D.symbol
4. _ A whole number that can divide evenly into another number without a remainder.
A.variable B.commutative property of multiplication C.least common multiple D.divisible
5. _ The smallest number that is a common multiple of a given set of numbers.
A.prime number B.sequence C.squared D.least common multiple
6.     - When one of the factors of a product is a sum, multiplying each addend before adding does not change the product.
A.zero property of multiplication B.associative property of multiplication C.distributive property D.variable
7. _ A letter or symbol used to represent a number.
A.commutative property of multiplication B.variable C.least common multiple D.sequence
8. _ A whole number that has exactly two factors, 1 and itself.
A.variable B.whole C.sequence D.prime number
9. _ Changing the grouping of three or more factors does not change the product.
A.commutative property of multiplication B.prime number C.volume D.associative property of multiplication
10. _ When the exponent is 2 .
A.prime factorization B.symbol C.squared D.whole
11. _ All of the parts of something.
A.whole B.distributive property C.vertex D.prime number
12. _ A table that lists pairs of numbers that follow a rule.

- A.distributive property B.symbol C.function table D.prime number

13. _ Breaking down a composite number until all of the factors are prime.
A.commutative property of multiplication B.zero property of multiplication C.whole D.prime factorization
14. _ Anything that stands for or represents something else.
A.associative property of multiplication B.symbol C.vertex D.commutative property of multiplication
15. . The product of any number and zero is zero.
A.variable B.sequence
C.vertex
D.zero property of multiplication
16. _ The amount of space that something occupies or the amount of space that something contains. A.zero property of multiplication B.least common multiple C.associative property of multiplication D.volume
