

## 5th Grade CCSS Math Vocabulary Quiz 31

1. D A pair of symbols used to enclose sections of an expression. { }  
A.point B.square root C.coefficient D.braces
2. C A number written as a product of its factors.  
A.relationship B.expression C.factorization D.point
3. D A number in front of a variable.  
A.expression B.inequality C.inverse operations D.coefficient
4. D To find the value of a numerical or algebraic expression.  
A.exponent B.solution C.inequality D.evaluate
5. A PEMDAS (Parentheses, Exponents, Multiplication/Division left to right, Addition/Subtraction left to right).  
A.order of operations B.forms C.inequality D.factorization
6. B A mathematical phrase that contains operations, numbers, and/or variables, but doesn't have an equal sign.  
A.pair B.expression C.inequality D.factorization
7. C A mathematical notation indicating the number of times a quantity is multiplied by itself.  
A.operation B.relationship C.exponent D.pair
8. C Operations that undo each other.  
A.evaluate B.inequality C.inverse operations D.coefficient
9. A A mathematical process applied to solve a problem.  
A.operation B.braces C.order of operations D.forms
10. A A set of two things used together or regarded as a unit.  
A.pair B.braces C.order of operations D.inverse operations
11. D An exact location in space represented by a dot.  
A.inverse operations B.operation C.square root D.point
12. A The ways that two things are similar, different, or otherwise connected. An association between two or more variables.  
A.relationship B.coefficient C.expression D.order of operations
13. B Three-dimensional objects that have height, length, and width such as spheres, cylinders, cones, cubes, rectangular prisms, and pyramids. Shapes, appearances, or arrangements.  
A.point B.forms C.square root D.inverse operations
14. D A mathematical expression which shows that two quantities are not equal.  
A.inverse operations B.point C.forms D.inequality
15. B The explanation or answer for a problem.  
A.operation B.solution C.pair D.point
16. D A number that when multiplied by itself equals a given number.  
A.exponent B.pair C.order of operations D.square root
