

5th Grade CCSS Math Vocabulary Quiz 34

1. C The number that occurs most often in a set of data.
A.operation B.denominator C.mode D.quarter
2. C The largest number that is a common divisor of a given set of numbers.
A.half B.increment C.greatest common factor D.simplify an expression
3. B An increase or addition, especially one of a series on a fixed scale.
A.denominator B.increment C.greatest common factor D.numerator
4. D The difference between the greatest and least numbers in a set of data.
A.interpret B.operation C.simplify an expression D.range
5. D The middle number in a set of numbers that are listed in order.
A.numerator B.range C.mode D.median
6. D One of two equal parts.
A.ratio B.denominator C.mean D.half
7. B To remove brackets, unnecessary numbers, and terms.
A.quarter B.simplify an expression C.operation D.denominator
8. B To explain or tell the meaning of something.
A.numerator B.interpret C.quarter D.denominator
9. A The top number in a fraction.
A.numerator B.greatest common factor C.median D.interpret
10. D The average of a set of numbers.
A.half B.ratio C.numerator D.mean
11. D A comparison of two or more numbers using division.
A.numerator B.greatest common factor C.mean D.ratio
12. B A mathematical process applied to solve a problem.
A.increment B.operation C.median D.quarter
13. B A mathematical statement that includes an equal sign.
A.mean B.equation C.numerator D.simplify an expression
14. B One of four equal parts.
A.part B.quarter C.denominator D.simplify an expression
15. D The bottom number in a fraction.
A.simplify an expression B.range C.operation D.denominator
16. B A portion or piece of a whole.
A.denominator B.part C.interpret D.median
