

## 5th Grade CCSS Math Vocabulary Quiz 6

1. A PEMDAS (Parentheses, Exponents, Multiplication/Division left to right, Addition/Subtraction left to right).  
A.order of operations B.square root C.point D.coefficient
2. A A set of two things used together or regarded as a unit.  
A.pair B.braces C.square root D.order of operations
3. A A mathematical process applied to solve a problem.  
A.operation B.order of operations C.solution D.inverse operations
4. C A number in front of a variable.  
A.square root B.inequality C.coefficient D.forms
5. B A number that when multiplied by itself equals a given number.  
A.inequality B.square root C.braces D.relationship
6. B A mathematical phrase that contains operations, numbers, and/or variables, but doesn't have an equal sign.  
A.pair B.expression C.coefficient D.square root
7. B Three-dimensional objects that have height, length, and width such as spheres, cylinders, cones, cubes, rectangular prisms, and pyramids. Shapes, appearances, or arrangements.  
A.exponent B.forms C.inequality D.evaluate
8. A The explanation or answer for a problem.  
A.solution B.inverse operations C.exponent D.order of operations
9. A A mathematical notation indicating the number of times a quantity is multiplied by itself.  
A.exponent B.order of operations C.operation D.braces
10. A An exact location in space represented by a dot.  
A.point B.evaluate C.braces D.coefficient
11. B To find the value of a numerical or algebraic expression.  
A.order of operations B.evaluate C.relationship D.coefficient
12. D A pair of symbols used to enclose sections of an expression. { }  
A.evaluate B.pair C.relationship D.braces
13. D A mathematical expression which shows that two quantities are not equal.  
A.relationship B.square root C.order of operations D.inequality
14. C A number written as a product of its factors.  
A.exponent B.evaluate C.factorization D.square root
15. D The ways that two things are similar, different, or otherwise connected. An association between two or more variables.  
A.factorization B.evaluate C.expression D.relationship
16. C Operations that undo each other.  
A.exponent B.point C.inverse operations D.inequality
