

5th Grade CCSS Math Vocabulary Quiz 6

1. ___ PEMDAS (Parentheses, Exponents, Multiplication/Division left to right, Addition/Subtraction left to right).
A.order of operations B.square root C.point D.coefficient
2. ___ A set of two things used together or regarded as a unit.
A.pair B.braces C.square root D.order of operations
3. ___ A mathematical process applied to solve a problem.
A.operation B.order of operations C.solution D.inverse operations
4. ___ A number in front of a variable.
A.square root B.inequality C.coefficient D.forms
5. ___ A number that when multiplied by itself equals a given number.
A.inequality B.square root C.braces D.relationship
6. ___ A mathematical phrase that contains operations, numbers, and/or variables, but doesn't have an equal sign.
A.pair B.expression C.coefficient D.square root
7. ___ Three-dimensional objects that have height, length, and width such as spheres, cylinders, cones, cubes, rectangular prisms, and pyramids. Shapes, appearances, or arrangements.
A.exponent B.forms C.inequality D.evaluate
8. ___ The explanation or answer for a problem.
A.solution B.inverse operations C.exponent D.order of operations
9. ___ A mathematical notation indicating the number of times a quantity is multiplied by itself.
A.exponent B.order of operations C.operation D.braces
10. ___ An exact location in space represented by a dot.
A.point B.evaluate C.braces D.coefficient
11. ___ To find the value of a numerical or algebraic expression.
A.order of operations B.evaluate C.relationship D.coefficient
12. ___ A pair of symbols used to enclose sections of an expression. { }
A.evaluate B.pair C.relationship D.braces
13. ___ A mathematical expression which shows that two quantities are not equal.
A.relationship B.square root C.order of operations D.inequality
14. ___ A number written as a product of its factors.
A.exponent B.evaluate C.factorization D.square root
15. ___ The ways that two things are similar, different, or otherwise connected. An association between two or more variables.
A.factorization B.evaluate C.expression D.relationship
16. ___ Operations that undo each other.
A.exponent B.point C.inverse operations D.inequality
