

5th Grade CCSS Math Vocabulary Quiz 9

1. A A mathematical statement that includes an equal sign.
A.equation B.simplify an expression C.interpret D.part
2. C An increase or addition, especially one of a series on a fixed scale.
A.mode B.simplify an expression C.increment D.median
3. C One of two equal parts.
A.equation B.mean C.half D.numerator
4. D A mathematical process applied to solve a problem.
A.numerator B.part C.quarter D.operation
5. A The number that occurs most often in a set of data.
A.mode B.half C.range D.simplify an expression
6. C The average of a set of numbers.
A.increment B.median C.mean D.interpret
7. D A comparison of two or more numbers using division.
A.quarter B.equation C.mean D.ratio
8. C The difference between the greatest and least numbers in a set of data.
A.quarter B.part C.range D.mode
9. A A portion or piece of a whole.
A.part B.denominator C.operation D.interpret
10. C The largest number that is a common divisor of a given set of numbers.
A.half B.denominator C.greatest common factor D.numerator
11. A One of four equal parts.
A.quarter B.greatest common factor C.denominator D.increment
12. A To remove brackets, unnecessary numbers, and terms.
A.simplify an expression B.increment C.equation D.quarter
13. D To explain or tell the meaning of something.
A.greatest common factor B.range C.denominator D.interpret
14. B The top number in a fraction.
A.mean B.numerator C.greatest common factor D.median
15. B The middle number in a set of numbers that are listed in order.
A.denominator B.median C.mean D.mode
16. A The bottom number in a fraction.
A.denominator B.operation C.median D.range
