

# 3rd Grade CCSS Math Vocabulary Crossword Puzzle 12

1. Using the Across and Down clues, write the correct words in the numbered grid below.

## ACROSS

2. A system of measurement used in the U.S. The system includes units for measuring length, capacity, and weight.
4. Changing the order of the factors does not change the product.
6. Having exactly the same size and shape.
8. Numbers that are easy to compute mentally and are close in value to the actual numbers. Useful for estimating.
9. The whole numbers that can be used to count a set of objects. (Example: 1, 2, 3, 4...)
10. Changing the order of the addends does not change the sum.
11. A figure that begins and ends at the same point.

counting numbers  
bar graph  
commutative property of multiplication  
base-ten numerals  
congruent  
customary system

## DOWN

1. Any of the digits 0, 1, 2, 3, 4, 5, 6, 7, 8, or 9. These symbols can represent any amount based on a place value system of grouping by tens.
3. A graph that uses the height or length of rectangles to compare data.
4. A vertical arrangement of numbers or information in an array or table.
5. To decide if one number is greater than, less than, or equal to another number.
7. A collection of information.

data  
compare  
commutative property of addition  
closed shape  
column  
compatible numbers
