- Changing the grouping of three or more addends does not change the sum.
- A model of multiplication that shows each place value product within a rectangle drawing.
- When you add zero to a number, the sum is that same number.
- A sequence of numbers in which the difference between any two consecutive numbers is the same.
- A step-by-step method for computing.
- To combine two or more quantities.
- The measure in square units of the inside of a plane figure.
- Changing the grouping of three or more factors does not change the product.
- A characteristic of an object such as color, shape, size, etc.
- An arrangement of objects in equal rows.
- A clock that shows the time by the positions of the hour and minute hand.
- Any number being added.

associative property of multiplication  
array  
attribute  
analog clock  
algorithm  
area model

associative property of addition  
additive identity property of zero  
arithmetic patterns  
add  
area  
addend
