1. A step-by-step method for computing.
2. Any number being added.
3. A model of multiplication that shows each place value product within a rectangle drawing.
4. A characteristic of an object such as color, shape, size, etc.
5. Changing the grouping of three or more factors does not change the product.
6. A sequence of numbers in which the difference between any two consecutive numbers is the same.
7. A clock that shows the time by the positions of the hour and minute hand.
8. The measure in square units of the inside of a plane figure.
9. Changing the grouping of three or more addends does not change the sum.
10. When you add zero to a number, the sum is that same number.
11. An arrangement of objects in equal rows.
12. To combine two or more quantities.
