

## 3rd Grade CCSS Math Vocabulary Study Sheet 10

- |                                     |  |
|-------------------------------------|--|
| 1. tally table                      | A table that uses tally marks to record data.  |
| 2. thirds                           | The parts you get when you divide something into 3 equal parts.                              |
| 3. time interval                    | A duration of a segment of time.   |
| 4. trapezoid                        | A quadrilateral with one pair of parallel sides and one pair of sides that are not parallel. |
| 5. triangle                         | A polygon with three sides and three angles.   |
| 6. two-dimensional                  | Having length and width. Having area, but not volume.  |
| 7. unit fraction                    | A fraction that has 1 as its numerator.  |
| 8. unit square                      | A square with side lengths of 1 unit each. It has an area of 1 square unit.                  |
| 9. variable                         | A letter or symbol that represents a number.   |
| 10. vertex                          | A point at which two or more sides of a geometric figure meet.                               |
| 11. whole numbers                   | Whole numbers are zero and the counting numbers 1, 2, 3, 4, 5, 6, and so on.                 |
| 12. zero property of multiplication | The product of any number and zero is zero.  |
