- Text that comes from the story used to support analysis.
- A little story or small piece of information.
- The message or underlying meaning a writer reveals in a novel, short story, or other literary work.
- When the conflict is resolved at the end of the story.
- A related series of incidents in a literary plot that build toward the point of greatest interest.
- The elements of plot after a story's climax and before the resolution.
- The background information of the characters and setting explained at the beginning of the story.
- People, animals, or creatures in a story or drama.
- The sequence of events that make up a story.
- The decisive moment or turning point when the rising action of the play is reversed to falling action.
- The vantage point from which a story is presented.
- A struggle between two opposing forces.
- The mood implied by an author's word choices.
