

# 4th Grade CCSS Math Vocabulary Crossword Puzzle 15

1. Using the Across and Down clues, write the correct words in the numbered grid below.

## ACROSS

- When one of the factors of a product is a sum, multiplying each addend before adding does not change the product.
- The amount that remains after one quantity is subtracted from another.
- To separate into equal groups and find the number in each group or the number of groups.
- The number by which another number is divided.
- To find the value of a mathematical expression.
- Fractions that have the same value.

## DOWN

- A point at either end of a line segment, or a point at one end of a ray.
- A mathematical sentence with an equal sign. The amount on one side of the equal sign has the same value as the amount on the other side.
- A number that is divided by another number.
- To find a number close to an exact amount.
- Any one of the symbols 0, 1, 2, 3, 4, 5, 6, 7, 8, and 9.
- Having the same value.
