

5th Grade CCSS Math Vocabulary Crossword 12

1. Using the Across and Down clues, write the correct words in the numbered grid below.

[illegible]

ACROSS

3. A plane formed by the intersection of a horizontal number line called the x-axis and a vertical number line called the y-axis.
7. Can be divided evenly without leaving a remainder.
9. The answer to a multiplication problem.
10. To rewrite a fraction in lowest terms.
11. A pair of symbols used to enclose sections of an expression. []
14. Pairs of numbers used to locate points on a coordinate grid. The first number in a pair tells how far to move horizontally, and the second number tells how far to move vertically.
15. A pattern containing numbers.
16. To follow each other in an unbroken sequence.

DOWN

1. To find the answer by using arithmetic, adding, subtracting, multiplying or dividing. To figure out by reason or logic.
2. Breaking down a composite number until all of the factors are prime.
4. Having the same value or amount.
5. A way of making sure your answer is reasonable by making an approximate calculation. Rounding is a commonly used strategy.
6. The left-over amount when a number cannot be divided equally.
8. A pair of symbols used to set apart parts of a problem so that those parts are done first. ()
12. A general statement written in numbers, symbols, or words that describes how to determine any term in a pattern or relationship.
13. The ratio of a number to 100 (per one hundred). %
