

5th Grade CCSS Math Vocabulary Crossword 37

1. Using the Across and Down clues, write the correct words in the numbered grid below.

ACROSS

3. A plane formed by the intersection of a horizontal number line called the x-axis and a vertical number line called the y-axis.
5. To rewrite a fraction in lowest terms.
6. A pair of symbols used to set apart parts of a problem so that those parts are done first. ()
9. Having the same value or amount.
10. To find the answer by using arithmetic, adding, subtracting, multiplying or dividing. To figure out by reason or logic.
11. The answer to a multiplication problem.
12. A pattern containing numbers.

DOWN

1. Can be divided evenly without leaving a remainder.
2. The left-over amount when a number cannot be divided equally.
4. Pairs of numbers used to locate points on a coordinate grid. The first number in a pair tells how far to move horizontally, and the second number tells how far to move vertically.
7. A general statement written in numbers, symbols, or words that describes how to determine any term in a pattern or relationship.
8. The ratio of a number to 100 (per one hundred). %
