## 5th Grade CCSS Math Vocabluary Matching 12

Write the word that best matches each definition or clue.

1. $\qquad$ A mathematical phrase that contains operations, numbers, and/or variables, but doesn't have an equal sign.
2. $\qquad$ A mathematical notation indicating the number of times a quantity is multiplied by itself.
3. $\qquad$ The explanation or answer for a problem.
4. $\qquad$ A number written as a product of its factors.
5. $\qquad$ A mathematical expression which shows that two quantities are not equal.
6. $\qquad$ PEMDAS (Parentheses, Exponents, Multiplication/Division left to right, Addition/Subtraction left to right).
7. $\qquad$ A pair of symbols used to enclose sections of an expression. \{ \}
8. $\qquad$ To find the value of a numerical or algebraic expression.
9. $\qquad$ A set of two things used together or regarded as a unit.
10. $\qquad$ Three-dimensional objects that have height, length, and width such as spheres, cylinders, cones, cubes, rectangular prisms, and pyramids. Shapes, appearances, or arrangements.
11. $\qquad$ A number that when multiplied by itself equals a given number.
12. $\qquad$ An exact location in space represented by a dot.
13. $\qquad$ A number in front of a variable.
14. $\qquad$ A mathematical process applied to solve a problem.
15. $\qquad$ Operations that undo each other.
16. $\qquad$ The ways that two things are similar, different, or otherwise connected. An association between two or more variables.
