## 7th Grade CCSS Math Vocabluary Word Search 6

1. First, write the correct clue number to the left of each word in the Word Bank. Then, circle the words that have been hidden vertically, horizontally, and diagonally.

| C | Y | F | W | V | $\mathbb{N}$ | 0 | N | T | E | R | M |  | N | A | T |  | N | G | D | E | C | 1 | M | A | ) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| G | R | E | A | T | E | 5 | T | C | 0 | M | M | 0 | N | $F$ | A | C | T | 0 |  | (1) | C | B | N | R | E |

1. Angles on the outside of a triangle.
2. Two adjacent angles that have noncommon sides that form a line.
3. When values vary so that one increases or decreases a specific amount, the other value increases or decreases by a constant.
4. Order numbers least to greatest then find the middle value or find average of two middle values.
5. Largest factor that two or more numbers or terms have in common.
6. Decimal neither terminates nor repeats.
7. In a data set, this is the value(s) that occurs most often.
8. Average of the absolute values of the deviations of each data value from the mean.
9. Angle whose measure is greater than $90^{\circ}$ but less than $180^{\circ}$.
10. Average of data set.
11. Decimal that continues without end.
12. Measure of the exterior angle of a triangle is equal to the sum of the measures of the two remote interior angles of the triangle.
13. Circle that fits exactly within the boundaries of another shape.
14. Equal to twice the radius of the circle.
15. Mathematical sentence that is created by placing an equal sign between two expressions.
inscribed circle
obtuse angle
median
exterior angles
non-repeating decimals
greatest common factor mean
non-terminating decimal
equation
direct variation
exterior angle theorem mode
mean absolute deviation diameter linear pair
