

## 8th Grade CCSS Math Vocabulary Word Search 3

1. First, write the correct clue number to the left of each word in the Word Bank. Then, circle the words that have been hidden vertically, horizontally, and diagonally.

1. A point at which a graph intersects the y-axis.
2. A figure in which part of the figure has the same shape as the whole figure.
3. The result of infinitely many applications of a recursive procedure to a geometric figure.
4. A measure of the steepness of a line on a graph.
5. Mathematical sentences built from expressions using one or more equal signs.
6. 2 points on a line (endpoints) and all the points between them on the line.
7. Please Excuse My Dear Aunt Sally (parentheses, exponents, multiply/divide from left to right, add/subtract from left to right).
8. The set of y-values of a function or relation.
9. An angle on the interior of a plane figure.
10. A procedure that you do over and over each time building on the previous stage.
11. Not ordered and unpredictable.
12. An expression used to calculate a desired result.
13. The set of x-values that give rise to real y-values.
14. Indicates how many times the base is to be used as a factor.
15. To find the value of an expression.
16. A symbol for an unknown number usually expressed as a letter.
