2nd Grade CCSS Math Vocabulary Quiz 23

1. __C__   Take apart.
   A.equivalent   B.same   C.decompose   D.perimeter

2. __D__   An arrangement of objects in equal rows.
   A.perimeter   B.decompose   C.congruent   D.array

3. __B__   Not different.
   A.fewer   B.same   C.counting in order   D.parallel lines

4. __B__   An exact location in space represented by a dot.
   A.same   B.point   C.equivalent   D.counting in order

5. __A__   The distance around a figure.
   A.perimeter   B.parallel lines   C.same   D.compose

6. __D__   Lines that are always the same distance apart.
   A.counting in order   B.perimeter   C.congruent   D.parallel lines

7. __D__   Not the same.
   A.fewer   B.counting in order   C.congruent   D.different

8. __D__   Equal in amount or value.
   A.point   B.fewer   C.congruent   D.equivalent

9. __B__   Having the same shape and size.
   A.same   B.congruent   C.decompose   D.compose

10. __D__   Put together; create.
    A.point   B.decompose   C.same   D.compose

11. __D__   Less than the one that is greater.
    A.decompose   B.same   C.array   D.fewer

12. __C__   Counting from lowest to highest or first to last.
    A.point   B.compose   C.counting in order   D.decompose
