1. A solid shape with 2 circle faces and rolls.

2. Counting from lowest to highest or first to last.

3. A solid shape with a circle face that comes to a point.

4. To put into a group based on features, qualities, properties, and attributes.

5. A solid three-dimensional figure which has 6 square faces, 8 vertices, and 12 edges.

6. Less than the one that is greater.

7. Joins one vertex with another.

8. The plural (more than one) word for vertex. A vertex is a point where 2 sides come together. Vertices are more than one vertex.
