1. A solid shape with 2 circle faces and rolls.
2. Joins one vertex with another.
3. Less than the one that is greater.
4. To put into a group based on features, qualities, properties, and attributes.
5. A solid shape with a circle face that comes to a point.
6. A solid three-dimensional figure which has 6 square faces, 8 vertices, and 12 edges.
7. The plural (more than one) word for vertex. A vertex is a point where 2 sides come together. Vertices are more than one vertex.
8. Counting from lowest to highest or first to last.
