

5th Grade Science Vocabulary Crossword Puzzle 9

1. Using the Across and Down clues, write the correct words in the numbered grid below.

ACROSS

3. Life cycle of many insects with four stages: egg, larva, pupa, adult.
5. An organism that must eat another organism in order to get energy to survive.
9. Refers to the movement of oxygen through the atmosphere, biosphere and the lithosphere.
10. A type of metamorphosis in which an insect hatches from an egg and then goes through several nymphal stages finally moulting into an adult form.
12. Solid, liquid, and gas.
13. Two or more substances put together that can be easily separated.
14. An organism that breaks down dead plants and animals. This allows nutrients to go back into the soil to be reused.

DOWN

1. An organism that makes its own food using energy from the sun through a process called photosynthesis.
2. The arrows between organisms in a food chain or food web that show the flow of energy. The arrow points to the organism that is receiving the energy.
4. All living and nonliving things that interact with each other in an environment.
6. Any living thing.
7. Recurring series of events that happens in nature.
8. To sort into groups by characteristic or property.
11. Anything that has mass and takes up space.
