

5th Grade Science Vocabulary Crossword Puzzle Review 9

1. Using the Across and Down clues, write the correct words in the numbered grid below.

ACROSS

3. A behavior that an animal develops by observing other animals or by being taught.
5. Light bouncing off of an object.
6. Does not allow light to go through.
7. Process in which plants give off water through their stomata.
10. The amount of matter in an object.
12. Spinning on an axis; the Earth does one of these every 24 hours.
13. Mass per unit volume.
14. The arrows between organisms in a food chain or food web that show the flow of energy. The arrow points to the organism that is receiving the energy.
15. A sign or symbol that stands for something else.

DOWN

1. To examine something by breaking it down to focus on its parts or components.
2. The process of moving sediment from one place to another.
4. The process of dropping or depositing sediment in a new place.
8. The bending of light when it passes from one substance into a different substance.
9. Any living thing.
11. A push or a pull.
