

Biology Vocabulary Quiz 15

1. A A selectively-permeable phospholipid bilayer forming the boundary of the cells.
A.plasma membrane B.proteins C.pollen D.respiration
2. D The organ system that brings oxygen to body cells and removes waste gas.
A.secondary succession B.recessive allele C.proteins D.respiratory system
3. C An organism that eats tertiary consumers.
A.species B.pollination C.quarternary consumer D.secondary consumer
4. B The ability to regrow a missing part of the body.
A.proteins B.regeneration C.quarternary consumer D.recessive allele
5. C Nutrients the body uses to build and maintain its cells and tissues.
A.pollination B.secondary consumer C.proteins D.recessive allele
6. C An organism that eats producers.
A.respiration B.primary succession C.primary consumer D.pollen
7. C The transfer of pollen from male reproductive structures to female reproductive structures in plants.
A.secondary consumer B.proteins C.pollination D.secondary succession
8. A An organism that eats primary consumers.
A.secondary consumer B.regeneration C.proteins D.quarternary consumer
9. C An allele that is masked when a dominant allele is present.
A.quarternary consumer B.respiratory system C.recessive allele D.pollination
10. C A group of individuals that belong to the same species and live in the same area.
A.pollination B.recessive allele C.population D.species
11. C Succession that occurs on surfaces where no soil exists.
A.quarternary consumer B.primary consumer C.primary succession D.plasma membrane
12. C A fine dust that contains the sperm of seed-producing plants.
A.species B.secondary succession C.pollen D.plasma membrane
13. B Inhalation and exhalation of air.
A.primary consumer B.respiration C.pollination D.recessive allele
14. D Type of succession that occurs in an area that was only partially destroyed by disturbances.
A.pollen B.quarternary consumer C.proteins D.secondary succession
15. C A group of similar organisms that can breed and produce fertile offspring.
A.primary consumer B.quarternary consumer C.species D.primary succession
