

## Biology Vocabulary Quiz 7

1. \_\_\_ Succession that occurs on surfaces where no soil exists.  
A.quarternary consumer B.recessive allele C.respiratory system D.primary succession
2. \_\_\_ An allele that is masked when a dominant allele is present.  
A.plasma membrane B.recessive allele C.pollination D.secondary consumer
3. \_\_\_ A group of individuals that belong to the same species and live in the same area.  
A.regeneration B.population C.secondary consumer D.respiratory system
4. \_\_\_ An organism that eats tertiary consumers.  
A.quarternary consumer B.proteins C.species D.pollen
5. \_\_\_ An organism that eats primary consumers.  
A.pollen B.secondary consumer C.primary succession D.pollination
6. \_\_\_ A group of similar organisms that can breed and produce fertile offspring.  
A.species B.secondary consumer C.pollination D.population
7. \_\_\_ The ability to regrow a missing part of the body.  
A.pollination B.respiration C.regeneration D.primary consumer
8. \_\_\_ Nutrients the body uses to build and maintain its cells and tissues.  
A.recessive allele B.proteins C.primary succession D.species
9. \_\_\_ The transfer of pollen from male reproductive structures to female reproductive structures in plants.  
A.regeneration B.species C.pollination D.primary consumer
10. \_\_\_ A selectively-permeable phospholipid bilayer forming the boundary of the cells.  
A.quarternary consumer B.recessive allele C.pollination D.plasma membrane
11. \_\_\_ Inhalation and exhalation of air.  
A.pollen B.respiration C.respiratory system D.quarternary consumer
12. \_\_\_ An organism that eats producers.  
A.respiratory system B.quarternary consumer C.primary consumer D.secondary succession
13. \_\_\_ A fine dust that contains the sperm of seed-producing plants.  
A.plasma membrane B.pollen C.recessive allele D.species
14. \_\_\_ Type of succession that occurs in an area that was only partially destroyed by disturbances.  
A.population B.plasma membrane C.secondary succession D.secondary consumer
15. \_\_\_ The organ system that brings oxygen to body cells and removes waste gas.  
A.respiratory system B.proteins C.pollen D.respiration
