

# Biology Vocabulary Crossword Puzzle 23

1. Using the Across and Down clues, write the correct words in the numbered grid below.

## ACROSS

1. Succession that occurs on surfaces where no soil exists.
5. An organism that eats tertiary consumers.
6. An organism that eats primary consumers.
9. Nutrients the body uses to build and maintain its cells and tissues.
11. The ability to regrow a missing part of the body.
12. A fine dust that contains the sperm of seed-producing plants.
13. An organism that eats producers.
14. The organ system that brings oxygen to body cells and removes waste gas.
15. Type of succession that occurs in an area that was only partially destroyed by disturbances.

## DOWN

2. An allele that is masked when a dominant allele is present.
3. A group of individuals that belong to the same species and live in the same area.
4. A selectively-permeable phospholipid bilayer forming the boundary of the cells.
7. Inhalation and exhalation of air.
8. The transfer of pollen from male reproductive structures to female reproductive structures in plants.
10. A group of similar organisms that can breed and produce fertile offspring.

secondary succession

population

respiration

quaternary consumer

secondary consumer

pollen

plasma membrane

respiratory system

proteins

pollination

species

primary consumer

recessive allele

regeneration

primary succession
