

4th Grade Science Vocabulary Crossword Puzzle 10

1. Using the Across and Down clues, write the correct words in the numbered grid below.

ACROSS

6. The use of any combination of materials, coloration, or illumination for concealment (being hidden), either by making animals, humans, or objects hard to see, or by disguising them as something else.
9. Organisms born in the water and have gills that become lungs.
10. A vertebrate animal of a class that includes snakes, lizards, crocodiles, turtles, and tortoises. They are distinguished by having a dry scaly skin and typically laying soft-shelled eggs on land.
11. The series of changes in the life of an organism including reproduction.
12. Traits that are passed down from parents to their offspring.
13. Seasonal movement of animals from one region to another.

pollination
life cycle
classify
camouflage

reptiles
amphibians
adaptation

DOWN

1. The transfer of pollen to a stigma, ovule, flower, or plant to allow fertilization.
2. Organisms with warm blood, who drink milk, and sweat when it's warm.
3. Behaviors that are learned through experience.
4. A characteristic or behavior that helps a living thing survive.
5. To arrange or sort objects according to their shared characteristics.
7. A limbless cold-blooded vertebrate animal with gills and fins and lives wholly in water.
8. Organisms that hatch from eggs, have wings and feathers.
