

4th Grade Science Vocabulary Crossword Puzzle 15

1. Using the Across and Down clues, write the correct words in the numbered grid below.

ACROSS

1. Behaviors that are learned through experience.
4. Organisms with warm blood, who drink milk, and sweat when it's warm.
7. The transfer of pollen to a stigma, ovule, flower, or plant to allow fertilization.
9. The use of any combination of materials, coloration, or illumination for concealment (being hidden), either by making animals, humans, or objects hard to see, or by disguising them as something else.
11. A characteristic or behavior that helps a living thing survive.
12. To arrange or sort objects according to their shared characteristics.
13. Traits that are passed down from parents to their offspring.

DOWN

2. A vertebrate animal of a class that includes snakes, lizards, crocodiles, turtles, and tortoises. They are distinguished by having a dry scaly skin and typically laying soft-shelled eggs on land.
3. Organisms born in the water and have gills that become lungs.
5. Seasonal movement of animals from one region to another.
6. Organisms that hatch from eggs, have wings and feathers.
8. The series of changes in the life of an organism including reproduction.
10. A limbless cold-blooded vertebrate animal with gills and fins and lives wholly in water.
