## 8th Grade CCS Math Vocabulary Crosswords 6

1. Using the Across and Down clues, write the correct answer in the numbered grid below.

## **ACROSS**

- 1. Angles that have the same position on two different parallel lines cut by a transversal.
- 5. Please Excuse My Dear Aunt Sally (parentheses, exponents, multiply and divide from left to right, add and subtract from left to right).
- 6. An expression used to calculate a desired result.
- 7. The set of y-values of a function or relation.
- 8. A procedure that you do over and over each time building on the previous stage.
- 11. Not ordered and unpredictable.
- 14. The set of x-values that give rise to real y-values.
- 15. The result of infinitely many applications of a recursive procedure to a geometric figure.
- 16. A figure in which part of the figure has the same shape as the whole figure.
- 17. 2 points on a line (endpoints) and all the points between them on the line.
- 18. An angle on the interior of a plane figure.

## **DOWN**

- 2. A measure of the steepness of a line on a graph.
- 3. A point at which a graph intersects the y-axis
- 4. Identical in shape although not necessarily the same size.
- 9. Mathematical sentences built from expressions using one or more equal signs.
- 10. To find the value of an expression.
- 12. A symbol for an unknown number usually expressed as a letter.
- 13. Indicates how many times the base is to be used as a factor.

exponent slope interior angle

recursive y intercept range

self-similar domain order of operations

random evaluate line segment

equations fractal variable

formula corresponding angles similar figures
